Peer Presentation Review, Mech 403, Name __________________________

1. Did the project demonstrate the use of CAD tools?
2. Were any supports (fixtures) and loads explained and justified?
3. Were the images bright and clear with free standing titles?
4. Did every team member speak loud enough to be understood?
5. Did the presentation contain any obvious errors?
6. If you learned of a new CAD feature what was it?
